github.com/pariamasihombing | Pematangsiantar, Medan, North Sumatera

Software Engineer Intern | Frontend-Oriented Developer

Information Systems undergraduate student with a foundation in software development, system analysis, and object-oriented programming. Experienced in developing small-scale applications and academic projects using Java, C, and web technologies. Familiar with database concepts, SDLC, and agile development. Possesses additional experience in UI/UX design using Figma, enabling the development of user-centered features and effective collaboration with design teams. Strong problem-solving skills, eager to learn, and comfortable collaborating in a team-based engineering environment.

EDUCATION

Del Institute of Technology, Undergraduate Students of **Information System**
Overall GPA: 3.38/4.0

Aug 2023 – December 2025

ORGANIZATIONAL EXPERIENCE

Student Council – Documentation Division, SMAN 4 Pematangsiantar

Jan 2022 – Jan 2023

Member

- Documented school events through photography and videography, managed media content, and produced visual documentation reports for internal publications.

Del Data Science Club (DDSC) – Del Institute of Technology

2024 – December 2025

Member

- Participated in data science discussions and workshops, focusing on data analysis and machine learning fundamentals.

Information System Student Association – Student Orientation Committee

Jan 2025 – Feb 2025

Del Institute of Technology

Coordinator of Documentation Division

- Led the documentation team in managing photo and video coverage throughout orientation events. Responsible for organizing tasks, supervising content delivery, and ensuring quality publication.

Department of Communication and Information – BEM

Dec 2024 – Present

Del Institute of Technology

Coordinator of Publication

- Led the publication division in planning and executing digital content strategies for organizational activities.

BEM Student Election Committee (KPU) – Del Institute of Technology

Sept 2025 – Dec 2025

Head of Multimedia, Documentation, and Public Relation Division

- Designed and managed election publication materials, including Instagram posts, banners, and event posters.
- Handled photo and video documentation across all election activities and coordinated YouTube livestream coverage.
- Distributed official information and announcements to students through social media and communication channels.

PROJECTS

Technopreneurship ([Technopreneurship-Project](#)) – Del Institute of Technology

- Designed a user-focused application prototype using Figma as part of the Technopreneurship course. Focused on solving real-life problems through ideation, wireframing, and prototyping stages.

Programming (github.com/pariamasihombing) – Del Institute of Technology

- Demonstrates understanding and practical implementation of various programming paradigms learned during coursework, including Visual Programming, Procedural Programming, and Object-Oriented Programming (OOP). The repository showcases small projects and exercises using languages such as Java, C, and others.

UI/UX ([UI/UX Redesign-Rumah Kreatif Toba](#)) - Del Institute of Technology

- Redesigned the user interface of the Rumah Kreatif Toba e-commerce platform through usability evaluation methods including Heuristic Evaluation, Competitive Analysis, and System Usability Scale (SUS). Identified key usability issues and developed a responsive interactive prototype in Figma to improve navigation, checkout flow, and visual consistency, supporting local MSMEs.

System Analysis and Design ([System Design-Toba Pangan Top](#)) - Del Institute of Technology

- Contributed to the design of a digital platform prototype aimed at improving food distribution efficiency in rural Danau Toba areas. Conducted system analysis and produced system documentation including BPMN, DFD, ERD, and functional requirements. Proposed user flows, interface concepts, and database structures to replace manual processes.

Web Application Programming and Testing ([LaporinAja](#)) - Del Institute of Technology

- Developed LaporinAja, a web-based public reporting system for residents of Sitoluama Village to report infrastructure and environmental issues to the village government. Supported implementation using Laravelactive prototypes in Figma, and collaborated with a 4-member team to document system requirements (use cases, BPMN, ERD). Supported implementation using Laravel, MySQL, HTML/CSS, and JavaScript, with features for report submission, admin verification, and status tracking.

Personal Portfolio Video ([Portfolio-Video](#)) - Del Institute of Technology

- Created a motion-based digital portfolio video from scratch without templates, focusing on clean, Apple-inspired visual design. Utilized Figma, Adobe After Effects, and Alight Motion to present personal projects, tools, and creative workflow, highlighting adaptability, collaboration, and digital product thinking.

SKILLS

- **Soft Skills:** Teamwork, Critical Thinking, Time Management, Communication, Problem Solving, Creativity, Flexibility, Adaptability.
- **Hard Skills:** Figma, UI/UX Design, Wireframing, Prototyping, Graphic Design, After Effects, Alight Motion, Microsoft Word, Excel, PowerPoint, SQL, OOP, HTML, CSS, PHP, JavaScript, C, Java, Network Configuration, Agile Development.
- **Language:** Indonesian (Native Speaker), English (Intermediate).
